MANAGEMENT COMMENT

Investment Grade spreads tightened in September from 54bp to 52bp. Rates continued to rise. The German 10-year rate rose from -0.38% to -0.20%

The credit market proved particularly resilient at a time when many questions remain. The rise in oil and commodities prices, the supply chain disruption and the impact on inflation are sources of worries for economic growth. Added to this was the crisis in the Chinese real estate sector, including the default of Evergrande that seems close. The primary market activity was dynamic in all market segments.

We participated in several new issues during the month. Danone, Adecco, Souther Co in their hybrid formats as well as Sofina, Saur and Cellnex in bullet debt. On the financials side, we initiated a position on Van Lanschot (Tier 2).
