Published in the "Journal de Monaco" and displayed at CMB Monaco headquarters and in CMB Monaco branches. Our funds' net asset values are regularly published and updated on the website [www.cmb.mc](http://www.cmb.mc)

## INVESTMENT UNIVERSE AND PHILOSOPHY

The fund GLOBAL LUX COURT TERME USD invests in short term bonds or interest rate products with a maximum weighted average residual life of 18 months and an average rating of Investment Grade.

The management is discretionary and conviction based with weak interest rate and credit sensitivities and a strong diversification across issuers and sectors.

## RISK PROFILE

Lower risk/potential reward

Higher risk/potential reward

The risk indicator, based on past volatility, cannot cover all types of risks to which the fund may be exposed. It is possible that the past data used does not constitute a reliable indication of the future risk profile. The category associated with this fund is not a guarantee and can evolve with time. The lowest category is not synonymous with a "riskless" investment.

## PERFORMANCE

Past performance is not a guarantee of future performance, nor is it constant with time and does not constitute in any case a guarantee of future performance.

## MANAGEMENT COMMENT

The US 2-year sovereign rate rebounded to +3.49%. The FED maintains in its speech to act against inflation. On September 21, the Fed funds will be raised to around 3%. The US economy is currently at full employment with new entrants. High credit premiums reflect the uncertainty about future growth with restrictive interest rates for the economy. The strategy is to keep low duration while the Fed implements its monetary policy.
