

Press Release - April 7th, 2017

CMB and OPMC, again partners for the 2017-2018 season

On April 6th, 2017 Patrice Cellario, Government Advisor - Minister of the Interior, Mr Etienne Franzi, President of the CMB and Werner Peyer CEO of the CMB, signed the renewal of the partnership of CMB with the Monte-Carlo Philharmonic Orchestra for the 5th consecutive year. The contract was signed in the Auditorium Rainier III in front of music lovers, government members, journalists and the public.

The partnership of CMB and the OPMC began back in 2012. The two institutions have both deep roots in the Principality and are recognized each in their field, for their level of excellence.

"The active policy of patronage of CMB confirms its will to contribute to the image of Monaco." Says the President of the bank, Etienne Franzi. **"We are very keen to associate ourselves with partners who value the image of CMB and the Principality."** he adds.

The 2016-2017 season of the OPMC had several successful initiatives. Over twenty different concerts have been performed for the first time in Monaco and the newly created cine-concert "Fantasia" has been a real success, welcoming more than 1700 spectators of all ages.

This season promises a year full of surprises and the CMB is pleased to share with its clients the **"Invitation to travel"**, a theme chosen by OPMC to orchestrate the program of its new season.
